

# Case Study – SAP to Microsoft Azure

## Case Study: SAP Landscape Migration to Microsoft Azure

### Customer Name:

Leading Consumer Goods company pioneering in water purification

---

### Customer Size

#### (Revenue):

USDM 600+

#### Employees:

10000+

### Project Details:

- **Solution:** SAP ECC 6.0 EHP4, CRM, Enterprise Portal & BW on Oracle Database
  
- **Challenges:**
  - Old On Premise Hardware, administrative overhead to manage
  - Hardware was not scalable to Company Growth
  - Big Database Size (ECC: ~12TB, CRM: ~10TB, BW: ~ 8 TB)
  - Out of warranty of POWER 5 & 6 servers
  - Not able to complete month end activities on time due to Hardware bottleneck
  
- **Migration Benefits:**
  - Scalable and Highly Available Architecture.
  - DR Setup in different region.
  - OS Migration to Oracle Linux.
  - Better Backup and Inventory Management.
  - Low Latency Express Route Link for better UX
